

rMicrofibre

CHICOPEE®

The only 100% microfibre wipe,
made with 100% recycled material.

Global Recycled Standard
Externally certified recycled content

Maximised cleaning, reduced CO₂

rMicrofibre™ is designed to be a short-term use, disposable product, made from 100% recycled material to reduce your CO₂ emissions and give a new life to recycled bottles and textiles, while maximising hygiene - bringing you one step closer to your sustainability goals.

A powerful bacteria magnet

Certified to remove an impressive 99.97% bacteria mechanically, rMicrofibre traps unseen bacteria and dirt in its micro fibers using only water, with the versatility to work with your favourite chemicals too. Perfect for tackling high-traffic areas.

Reclaim your gleaming screen

Get rid of the troublesome greasy fingerprints on touchscreens, glass, stainless steel and mirrors thanks to rMicrofibre™ streak-free cleaning powers. Made with pure microfibre, it's the perfect companion, removing 20% more natural oils¹.

Disposable for peace of mind

Designed to be disposable to avoid cross-contamination, rMicrofibre™ will discard all of the dirt it has accumulated during its cleaning journey the moment you dispose of it - reducing your washing pile and ensuring hygiene in high-risk areas.

Product Specifications:

Article Number	Colour Print	Sheet Size (L x W)	Sheets Per Pack	Packs Per Case	Product Type
74739	●	34x40cm	40	8	¼ Fold

1. Based on internal testing of rMicrofibre oil absorption vs. competitor disposable microfibre wipes.
